

ARPADIS offers you a support & solution service for the management of :

WASTE

We collect your waste solvents from your production process, in accordance within the regulatory frame-work.

Our partners regenerate the waste solvents according to your specification or we find alternative outlets.

OFF SPEC

We will collect your off-specification material or product that has exceeded its 'best before date'.

RECYCLED

We offer a wide range of recycled solvents that have been recovered to a high purity, to be used as low cost alternative to the virgin product.

OVERSTOCK

Arpadis can be a solution to your problem of unwanted overstocks.
